Subject: Environmental compliance – Monitoring Period July 2023 - November 2025

Respected Sir,

We have been accorded Environmental Clearance vide no. SEIAA-EC-0000002171,
Dated- 13.03.2020 for our proposed IT building at Survey No. 1 Hissa no. 1A, Village -Kharadi,
Taluka - Haveli, District -Pune by Gera Developments Pvt. Ltd.

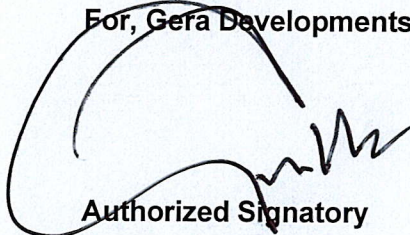

Please note that, till this date, we have not started any development/construction work on the said plot.

Please find herewith the Environmental Compliance report for the period **July 2023 - November 2025.**

Thanking You.

Yours faithfully,

For, Gera Developments Pvt. Ltd.

Authorized Signatory

Proposed IT Building

PROJECT INFORMATION DATA SHEET

1.	Project type: River - valley/ Mining / Industry / Thermal / Nuclear / Other (specify)	:	Construction project
2.	Name of the project	:	IT Building
3.	Clearance letter (s) / OM No. and Date	:	SEIAA-EC-0000002171
4.	Location	:	
	a. District (S)	:	Pune
	b. State (s)	:	Maharashtra
	c. Latitude/ Longitude	:	18°33'6.65"N 73° 56' 56.94"E
5.	Address for correspondence	:	
	a. Address of Concerned Project Chief Engineer (with pin code & Telephone / telex / fax numbers)	:	Mr. Gulzar Malhotra 200 Gera Plaza Boat Club Road Pune
	b. Address of Executive Project: Engineer/Manager (with pin code/ Fax numbers)	:	Mrs. Kshitija Bidwai 200 Gera Plaza Boat Club Road Pune
6.	Salient features	:	
	a. of the project	:	-
	b. of the environmental management plans	:	-
7.	Breakup of the project area	:	Plot area: - 8000 Sqm. FSI Area: -20646.84 Sqm. Non FSI Area: - 26607.48 Sqm. Total Built up area: - 47254.32. Sqm
	a. submergence area forest & non-forest	:	Not Applicable
	b. Others	:	Not Applicable
8.	Breakup of the project affected Population with enumeration of Those losing houses / dwelling units Only agricultural land only, both Dwelling units & agricultural Land & landless labourers /artisan	:	Not applicable
	a. SC, ST/Adivasis	:	Not applicable

	b.	Others (Please indicate whether these Figures are based on any scientific And systematic survey carried out Or only provisional figures, it a Survey is carried out give details And years of survey)	:	Not applicable
9.	Financial details		:	
	a.	Project cost as originally planned and subsequent revised estimates and the year of price reference:		
	1.	Total Cost of the Project	:	Rs. 89 Cr
	b.	Allocation made for environmental management plans with item wise and year wise Break-up.	:	Capital Cost- 135.25 Lacs Operational and Maintenance Cost 19.15 Lacs/Year
	c.	Benefit cost ratio / Internal rate of Return and the year of assessment	:	Not Applicable
	d.	Whether (c) includes the cost of environmental management as shown in the above.	:	Not Applicable
	e.	Actual expenditure incurred on the project so far	:	Till date we have not started any development/construction works on the said plot.
	f.	Actual expenditure incurred on the environmental management plans so far	:	To this date we have not started any development/construction work on the said plot.
10.	Forest land requirement		:	
	a.	The status of approval for diversion of forest land for non-forestry use	:	Not Applicable
	b.	The status of clearing felling	:	Not Applicable
	c.	The status of compensatory afforestation, it any	:	Not Applicable
	d.	Comments on the viability & sustainability of compensatory afforestation program in the light of actual field experience so far	:	Not Applicable
11.	The status of clear felling in Non-forest areas (such as submergence area of reservoir, approach roads), it any with quantitative information		:	Not Applicable

12.	Status of construction	:	To this date we have not started any development/construction work on the said plot.
	a. Date of commencement (Actual and/or planned)	:	
	b. Date of completion (Actual and/or planned)	:	
13.	Reasons for the delay if the Project is yet to start	:	Not Applicable
14	Dates of site visits	:	
	a. The dates on which the project was monitored by the Regional Office on previous Occasions, if any	:	No
	b. Date of site visit for this monitoring report.	:	No
15.	Details of correspondence with Project authorities for obtaining Action plans/information on Status of compliance to safeguards Other than the routine letters for Logistic support for site visits)	:	Kshitija Bidwai 200, Gera Plaza, Boat Club Road Sangamwadi, Pune 411001 Mobile: 9822020899
	(The first monitoring report may contain the details of all the Letters issued so far, but the Later reports may cover only the Letters issued subsequently.)	:	No

POST EC COMPLAINE

Specific Conditions:		
I	In CER, PP has proposed skill development activity which shall be replaced by some asset creation activity. PP to submit details of activities, i.e. number and location where the activity will be implemented. PP to revise CER accordingly.	Noted. Till date we have not started any development/construction works on the said plot.
II	PP to obtain CFO NOC	Noted. Till date we have not started any development/construction works on the said plot.
III	PP to ensure that CER plan gets approved from Municipal Commissioner/District Collector.	Noted. Till date we have not started any development/construction works on the said plot.
IV	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.	Noted. Till date we have not started any development/construction works on the said plot.
IV	SEIAA decided to grant EC for – FSI: 20646.84 m2, Non-FSI: 26607.48 m2 and Total BUA:47254.32 m2 (Plan Approval no-Zone 6/2754, Date-22.08.2019	Noted. Till date we have not started any development/construction works on the said plot.
General Conditions:		

I	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016	Noted. Till date we have not started any development/construction works on the said plot.
II	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms	Noted. Till date we have not started any development/construction works on the said plot.
III	This environmental clearance is issued subject to obtaining NOC from Forestry & Wildlife angle including clearance from the standing committee of the National Board for Wildlife as if applicable & this environment clearance does not necessarily imply that Forestry & Wildlife clearance granted to the project which will be considered separately on merit.	Noted. Till date we have not started any development/construction works on the said plot.
IV	PP has to abide by the conditions stipulated by SEAC& SEIAA	Noted. Till date we have not started any development/construction works on the said plot.
V	The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according to commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.	Noted. Till date we have not started any development
VI	If applicable Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.	Noted. Till date we have not started any development/construction works on the said plot.
VII	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.	Noted. Till date we have not started any development/construction works on the said plot.
VIII	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.	Noted. Till date we have not started any development/construction works on the said plot.
IX	The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.	Noted. Till date we have not started any development/construction works on the said plot.
X	Disposal of muck during construction phase should not create any adverse effect on the neighbouring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	Noted. Till date we have not started any development/construction works on the said plot.
XI	Arrangement shall be made that wastewater and storm water do not get mixed.	Noted. Till date we have not started any development/construction works on the said plot.
XII	All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.	Noted. Till date we have not started any development/construction works on the said plot.
XIII	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.	Noted. Till date we have not started any development/construction works on the said plot.

XIV	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.	Noted. Till date we have not started any development/construction works on the said plot.
XV	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.	Noted. Till date we have not started any development/construction works on the said plot.
XVI	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.	Noted. Till date we have not started any development/construction works on the said plot.
XVII	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.	Noted. Till date we have not started any development/construction works on the said plot.
XVIII	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.	Noted. Till date we have not started any development/construction works on the said plot.
XIX	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.	Noted. Till date we have not started any development/construction works on the said plot.
XX	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.	Noted. Till date we have not started any development/construction works on the said plot.
XXI	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, to conform to the stipulated standards by CPCB/MPCB.	Noted. Till date we have not started any development/construction works on the said plot.
XXII	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations)	Noted. Till date we have not started any development/construction works on the said plot.
XXIII	Ready mixed concrete must be used in building construction.	Noted. Till date we have not started any development/construction works on the said plot.
XXIV	Storm water control and its re-use as per CGWB and BIS standards for various applications.	Noted. Till date we have not started any development/construction works on the said plot.
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.	Noted. Till date we have not started any development/construction works on the said plot.
XXVI	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.	Noted. Till date we have not started any development/construction works on the said plot.

XXVII	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.	Noted. Till date we have not started any development/construction works on the said plot.
XXVIII	Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.	Noted. Till date we have not started any development/construction works on the said plot.
XXIX	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.	Noted. Till date we have not started any development/construction works on the said plot.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.	Noted. Till date we have not started any development/construction works on the said plot.
XXXI	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.	Noted. Till date we have not started any development/construction works on the said plot.
XXXII	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.	Noted. Till date we have not started any development/construction works on the said plot.
XXXIII	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non-conventional energy source as source of energy.	Noted. Till date we have not started any development/construction works on the said plot.
XXXIV	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.	Noted. Till date we have not started any development/construction works on the said plot.
XXXV	Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.	Noted. Till date we have not started any development/construction works on the said plot.
XXXVI	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.	Noted. Till date we have not started any development/construction works on the said plot.

XXXVII	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air-conditioned spaces while it is aspiration for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.	Noted. Till date we have not started any development/construction works on the said plot.
XXXVIII	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.	Noted. Till date we have not started any development/construction works on the said plot.
XXXIX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.	Noted. Till date we have not started any development/construction works on the said plot.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.	Noted. Till date we have not started any development/construction works on the said plot.
XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.	Noted. Till date we have not started any development/construction works on the said plot.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.	Noted. Till date we have not started any development/construction works on the said plot.
XLIII	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.	Noted. Till date we have not started any development/construction works on the said plot.
XLIV	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.	Noted. Till date we have not started any development/construction works on the said plot.
XLV	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.	Noted. Till date we have not started any development/construction works on the said plot.
XLVI	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.	Noted. Till date we have not started any development/construction works on the said plot.
XLVII	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.	Noted. Till date we have not started any development/construction works on the said plot.
XLVIII	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department.	Noted. Till date we have not started any development/construction works on the said plot.

XLIX	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in .	Advertisement was published in Marathi and English Newspaper. The copy of same is attached.
L	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.	Noted. Till date we have not started any development/construction works on the said plot.
LI	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.	Noted. Till date we have not started any development/construction works on the said plot.
LII	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.	Noted. Till date we have not started any development/construction works on the said plot.
LIII	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.	Noted. Till date we have not started any development/construction works on the said plot.
LIV	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.	Noted. Till date we have not started any development/construction works on the said plot.
4	The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.	Noted. Till date we have not started any development/construction works on the said plot.

5	In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.	Noted. Till date we have not started any development/construction works on the said plot.
6	The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.	Noted. Till date we have not started any development/construction works on the said plot.
7	Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, and amendments by MoEF&CC Notification dated 29th April, 2015	Noted. Till date we have not started any development/construction works on the said plot.
8	In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.	Noted. Till date we have not started any development/construction works on the said plot
9	The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.	Noted. Till date we have not started any development/construction works on the said plot
10	Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1stFloor, D- Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.	Noted. Till date we have not started any development/construction works on the said plot

STATE LEVEL ENVIRONMENT IMPACT ASSESSMENT AUTHORITY

Environment department,
Room No. 217, 2nd floor,
Mantralaya, Annexe,
Mumbai- 400 032.
Date: March 13, 2020

To,
Gera Developments Pvt. Ltd
at Survey no 1/1

Subject: Environment Clearance for Proposed IT building at Survey No. 1 Hissa no. 1A, Village -Kharadi, Taluka - Haveli, District -Pune by Gera Developments Pvt. Ltd.

Sir,

This has reference to your communication on the above mentioned subject. The proposal was considered as per the EIA Notification - 2006, by the State Level Expert Appraisal Committee-III, Maharashtra in its 92nd meeting and recommend the project for prior environmental clearance to SEIAA. Information submitted by you has been considered by State Level Environment Impact Assessment Authority in its 190th meetings.

2. It is noted that the proposal is considered by SEAC-III under screening category 8 (a) B-2 as per EIA Notification 2006.

Brief Information of the project submitted by you is as below :-

1.Name of Project	Proposed IT building at Survey No. 1 Hissa no. 1A, Village -Kharadi, Taluka -Haveli, District -Pune by Gera Developments Pvt. Ltd.
2.Type of institution	Private
3.Name of Project Proponent	Gera Developments Pvt. Ltd
4.Name of Consultant	ABC Techno Labs India Pvt Ltd
5.Type of project	Construction of proposed IT building
6.New project/expansion in existing project/modernization/diversification in existing project	New
7.If expansion/diversification, whether environmental clearance has been obtained for existing project	Not applicable
8.Location of the project	Survey no 1/1
9.Taluka	Haveli
10.Village	Kharadi
Correspondence Name:	Mr. Tushar Yeole
Room Number:	-
Floor:	-
Building Name:	200, Gera Plaza
Road/Street Name:	Boat Club road
Locality:	Pune
City:	Pune
11.Whether in Corporation / Municipal / other area	Pune Municipal Corporation
12.IOD/IOA/Concession/Plan Approval Number	Applied IOD/IOA/Concession/Plan Approval Number: NA Approved Built-up Area:
13.Note on the initiated work (If applicable)	The construction work will be initiated after obtaining EC
14.LOI / NOC / IOD from MHADA/ Other approvals (If applicable)	NA
15.Total Plot Area (sq. m.)	8000 sq.m.
16.Deductions	1117.72 sq. m.
17.Net Plot area	6882.28 sq. m.

SEIAA Meeting No: 190 Meeting Date: March 5, 2020 (SEIAA-STATEMENT-000001722)
SEIAA-MINUTES-0000003115
SEIAA-EC-0000002171

18 (a).Proposed Built-up Area (FSI & Non-FSI)	FSI area (sq. m.): 20,646.84 sq. m.
	Non FSI area (sq. m.): 26,607.48 sq. m.
	Total BUA area (sq. m.): 47254.32
18 (b).Approved Built up area as per DCR	Approved FSI area (sq. m.):
	Approved Non FSI area (sq. m.):
	Date of Approval: 21-09-2018
19.Total ground coverage (m2)	3077.46
20.Ground-coverage Percentage (%) (Note: Percentage of plot not open to sky)	45 %
21.Estimated cost of the project	890000000

Government of Maharashtra

22. Production Details

Serial Number	Product	Existing (MT/M)	Proposed (MT/M)	Total (MT/M)
1	Not applicable	Not applicable	Not applicable	Not applicable

23. Total Water Requirement

Dry season:	Source of water	PMC
	Fresh water (CMD):	89
	Recycled water - Flushing (CMD):	56
	Recycled water - Gardening (CMD):	5
	Swimming pool make up (Cum):	NA
	Total Water Requirement (CMD) :	89
	Fire fighting - Underground water tank(CMD):	350 CMD
	Fire fighting - Overhead water tank(CMD):	60 CMD
	Excess treated water	38 KLD
Wet season:	Source of water	PMC
	Fresh water (CMD):	89
	Recycled water - Flushing (CMD):	56
	Recycled water - Gardening (CMD):	0
	Swimming pool make up (Cum):	NA
	Total Water Requirement (CMD) :	89
	Fire fighting - Underground water tank(CMD):	350 CMD
	Fire fighting - Overhead water tank(CMD):	60 CMD
	Excess treated water	43 KLD
Details of Swimming pool (If any)	NA	

Government of Maharashtra

24.Details of Total water consumed

Particulars	Consumption (CMD)			Loss (CMD)			Effluent (CMD)		
	Existing	Proposed	Total	Existing	Proposed	Total	Existing	Proposed	Total
Domestic	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable

25.Rain Water Harvesting (RWH)	Level of the Ground water table:	NA
	Size and no of RWH tank(s) and Quantity:	1 X 30 CMD
	Location of the RWH tank(s):	Next to STP
	Quantity of recharge pits:	3 in nos.
	Size of recharge pits :	2 No. 3.5 m dia X 3.5 m depth, 1 No. 4 m X 2 m X 3.5 depth
	Budgetary allocation (Capital cost) :	23 Lacs
	Budgetary allocation (O & M cost) :	4 Lacs
	Details of UGT tanks if any :	UGT water tank capacity is 530 KL

26.Storm water drainage	Natural water drainage pattern:	NA
	Quantity of storm water:	NA
	Size of SWD:	NA

27.Sewage and Waste water	Sewage generation in KLD:	127 KLD
	STP technology:	MBBR-UF
	Capacity of STP (CMD):	130 KLD
	Location & area of the STP:	North west corner
	Budgetary allocation (Capital cost):	30 lacs
	Budgetary allocation (O & M cost):	3 lacs

Government of Maharashtra

28.Solid waste Management

Waste generation in the Pre Construction and Construction phase:	Waste generation:	320 kg/day
	Disposal of the construction waste debris:	Construction debris, waste concrete and broken bricks will be utilised in levelling, secondary concrete, below roads and remaining will be handed over to authorised vendors
Waste generation in the operation Phase:	Dry waste:	700 kg/day
	Wet waste:	300 kg/day
	Hazardous waste:	spent oil or oil grease for DG sets , paints etc.
	Biomedical waste (If applicable):	NA
	STP Sludge (Dry sludge):	36 kg/day
	Others if any:	E-waste-35 Kg/day
Mode of Disposal of waste:	Dry waste:	Handed over to authorised recycler for further handling and disposal
	Wet waste:	Will be converted to compost using Organic Waste Converter
	Hazardous waste:	Handed over to authorized vendor
	Biomedical waste (If applicable):	NA
	STP Sludge (Dry sludge):	Will be used as a manure
	Others if any:	E-waste will be handed over to authorized vendor
Area requirement:	Location(s):	On ground floor
	Area for the storage of waste & other material:	Approx. 60 sq.m.
	Area for machinery:	Approx. 24 sq. m.
Budgetary allocation (Capital cost and O&M cost):	Capital cost:	12 Lacs
	O & M cost:	1 Lacs

**Government of
Maharashtra**

29. Effluent Characteristics

Serial Number	Parameters	Unit	Inlet Effluent Characteristics	Outlet Effluent Characteristics	Effluent discharge standards (MPCB)
1	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable
Amount of effluent generation (CMD):		Not applicable			
Capacity of the ETP:		Not applicable			
Amount of treated effluent recycled :		Not applicable			
Amount of water sent to the CETP:		Not applicable			
Membership of CETP (if require):		Not applicable			
Note on ETP technology to be used		Not applicable			
Disposal of the ETP sludge		Not applicable			

Government of Maharashtra

30. Hazardous Waste Details

Serial Number	Description	Cat	UOM	Existing	Proposed	Total	Method of Disposal
1	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable

31. Stacks emission Details

Serial Number	Section & units	Fuel Used with Quantity	Stack No.	Height from ground level (m)	Internal diameter (m)	Temp. of Exhaust Gases
1	DG Stack	HSD 3.2	1	6	Not applicable	Not applicable

32. Details of Fuel to be used

Serial Number	Type of Fuel	Existing	Proposed	Total
1	Not applicable	Not applicable	Not applicable	Not applicable

Source of Fuel: Not applicable
 Mode of Transportation of fuel to site: Not applicable

33. Energy

Power requirement:	Source of power supply :	Maharashtra State Electricity Distribution Company Limited (MSEDCL)
	During Construction Phase: (Demand Load)	-
	DG set as Power back-up during construction phase	-
	During Operation phase (Connected load):	4000 kvA
	During Operation phase (Demand load):	3462 kvA
	Transformer:	4 X 1000 kvA
	DG set as Power back-up during operation phase:	3 X 1500 kvA
	Fuel used:	HSD
	Details of high tension line passing through the plot if any:	NIL

34. Energy saving by non-conventional method:

Energy Efficient Equipments will be used to conserve energy.

36. Detail calculations & % of saving:

Serial Number	Energy Conservation Measures	Saving %
1	Energy efficient equipments will be used wherever applicable	100 % of the common area lighting

37. Details of pollution control Systems

Source	Existing pollution control system	Proposed to be installed
NA	NA	NA

Budgetary allocation (Capital cost and O&M cost):	Capital cost:	10 Lacs
	O & M cost:	5 Lacs

38. Environmental Management plan Budgetary Allocation

a) Construction phase (with Break-up):

<p>SEIAA Meeting No: 190 Meeting Date: March 5, 2020 (SEIAA-STATEMENT-000001722) SEIAA-MINUTES-0000003115 SEIAA-EC-0000002171</p>	<p>Page 7 of 12</p>	 Shri. Anil Diggikar (Member Secretary SEIAA)
--	---------------------	--

Serial Number	Attributes	Parameter	Total Cost per annum (Rs. In Lacs)
1	Dust Control	Water for dust suppression	5
2	Sanitation	site sanitation and safety	3
3	Pollution Control	Environmental Monitoring	5
4	Pollution Control	Disinfection	3
5	Pollution Control	Health Check up	2

b) Operation Phase (with Break-up):

Serial Number	Component	Description	Capital cost Rs. In Lacs	Operational and Maintenance cost (Rs. in Lacs/yr)
1	Waste water Management	STP	30	3
2	Waste Management	Solid Waste Management	12	1
3	Green belt	Tree Plantation	20	3
4	Energy conservation measures	Energy efficient equipments	10	5
5	Pollution Control	Environmental Monitoring	5.25	0.5
6	Water Conservation & management	Laying of Storm & Sewer line up to final disposal point	20	2
7	Pollution Control	Baseline Ventilation	15	0.65
8	Water conservation & management	Rain water harvesting	23	4

39.Storage of chemicals (inflammable/explosive/hazardous/toxic substances)

Description	Status	Location	Storage Capacity in MT	Maximum Quantity of Storage at any point of time in MT	Consumption / Month in MT	Source of Supply	Means of transportation
Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable	Not applicable

40.Any Other Information

No Information Available

Government of Maharashtra

	CRZ/ RRZ clearance obtain, if any:	NA
	Distance from Protected Areas / Critically Polluted areas / Eco-sensitive areas/ inter-State boundaries	NIL in 10 km around project area
	Category as per schedule of EIA Notification sheet	8 (a) B-2
	Court cases pending if any	NO
	Other Relevant Informations	NA
	Have you previously submitted Application online on MOEF Website.	No
	Date of online submission	-

3. The proposal has been considered by SEIAA in its 190th meeting & decided to accord environmental clearance to the said project under the provisions of Environment Impact Assessment Notification, 2006 subject to implementation of the following terms and conditions:

Specific Conditions:

I	In CER, PP has proposed skill development activity which shall be replaced by some asset creation activity. PP to submit details of activities, i.e. number and location where the activity will be implemented. PP to revise CER accordingly.
II	PP to obtain CFO NOC.
III	PP to ensure that CER plan gets approved from Municipal Commissioner/District Collector.
IV	PP Shall comply with Standard EC conditions mentioned in the Office Memorandum issued by MoEF& CC vide F.No.22-34/2018-IA.III dt.04.01.2019.
V	SEIAA decided to grant EC for - FSI: 20646.84 m2, Non-FSI: 26607.48 m2 and Total BUA:47254.32 m2 (Plan Approval no-Zone 6/2754, Date-22.08.2019)

General Conditions:

I	E-waste shall be disposed through Authorized vendor as per E-waste (Management and Handling) Rules, 2016.
II	The Occupancy Certificate shall be issued by the Local Planning Authority to the project only after ensuring sustained availability of drinking water, connectivity of sewer line to the project site and proper disposal of treated water as per environmental norms.
III	This environmental clearance is issued subject to obtaining NOC from Forestry & Wild life angle including clearance from the standing committee of the National Board for Wild life as if applicable & this environment clearance does not necessarily implies that Forestry & Wild life clearance granted to the project which will be considered separately on merit.
IV	PP has to abide by the conditions stipulated by SEAC& SEIAA.
V	The height, Construction built up area of proposed construction shall be in accordance with the existing FSI/FAR norms of the urban local body & it should ensure the same along with survey number before approving layout plan & before according commencement certificate to proposed work. Plan approving authority should also ensure the zoning permissibility for the proposed project as per the approved development plan of the area.
VI	If applicable "Consent for Establishment" shall be obtained from Maharashtra Pollution Control Board under Air and Water Act and a copy shall be submitted to the Environment department before start of any construction work at the site.
VII	All required sanitary and hygienic measures should be in place before starting construction activities and to be maintained throughout the construction phase.
VIII	Adequate drinking water and sanitary facilities should be provided for construction workers at the site. Provision should be made for mobile toilets. The safe disposal of wastewater and solid wastes generated during the construction phase should be ensured.
IX	The solid waste generated should be properly collected and segregated. dry/inert solid waste should be disposed off to the approved sites for land filling after recovering recyclable material.
X	Disposal of muck during construction phase should not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
XI	Arrangement shall be made that waste water and storm water do not get mixed.
XII	All the topsoil excavated during construction activities should be stored for use in horticulture / landscape development within the project site.

**SEIAA Meeting No: 190 Meeting Date: March 5, 2020 (SEIAA-STATEMENT-000001722)
SEIAA-MINUTES-0000003115
SEIAA-EC-000002171**

Shri. Anil Diggikar (Member Secretary SEIAA)

XIII	Additional soil for leveling of the proposed site shall be generated within the sites (to the extent possible) so that natural drainage system of the area is protected and improved.
XIV	Green Belt Development shall be carried out considering CPCB guidelines including selection of plant species and in consultation with the local DFO/ Agriculture Dept.
XV	Soil and ground water samples will be tested to ascertain that there is no threat to ground water quality by leaching of heavy metals and other toxic contaminants.
XVI	Construction spoils, including bituminous material and other hazardous materials must not be allowed to contaminate watercourses and the dumpsites for such material must be secured so that they should not leach into the ground water.
XVII	Any hazardous waste generated during construction phase should be disposed off as per applicable rules and norms with necessary approvals of the Maharashtra Pollution Control Board.
XVIII	The diesel generator sets to be used during construction phase should be low sulphur diesel type and should conform to Environments (Protection) Rules prescribed for air and noise emission standards.
XIX	The diesel required for operating DG sets shall be stored in underground tanks and if required, clearance from concern authority shall be taken.
XX	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards and should be operated only during non-peak hours.
XXI	Ambient noise levels should conform to residential standards both during day and night. Incremental pollution loads on the ambient air and noise quality should be closely monitored during construction phase. Adequate measures should be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB/MPCB.
XXII	Fly ash should be used as building material in the construction as per the provisions of Fly Ash Notification of September 1999 and amended as on 27th August, 2003. (The above condition is applicable only if the project site is located within the 100Km of Thermal Power Stations).
XXIII	Ready mixed concrete must be used in building construction.
XXIV	Storm water control and its re-use as per CGWB and BIS standards for various applications.
XXV	Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
XXVI	The ground water level and its quality should be monitored regularly in consultation with Ground Water Authority.
XXVII	The installation of the Sewage Treatment Plant (STP) should be certified by an independent expert and a report in this regard should be submitted to the MPCB and Environment department before the project is commissioned for operation. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treated effluent emanating from STP shall be recycled/refused to the maximum extent possible. Discharge of this unused treated effluent, if any should be discharge in the sewer line. Treatment of 100% gray water by decentralized treatment should be done. Necessary measures should be made to mitigate the odour problem from STP.
XXVIII	Permission to draw ground water and construction of basement if any shall be obtained from the competent Authority prior to construction/operation of the project.
XXIX	Separation of gray and black water should be done by the use of dual plumbing line for separation of gray and black water.
XXX	Fixtures for showers, toilet flushing and drinking should be of low flow either by use of aerators or pressure reducing devices or sensor based control.
XXXI	Use of glass may be reduced up to 40% to reduce the electricity consumption and load on air conditioning. If necessary, use high quality double glass with special reflective coating in windows.
XXXII	Roof should meet prescriptive requirement as per Energy Conservation Building Code by using appropriate thermal insulation material to fulfill requirement.
XXXIII	Energy conservation measures like installation of CFLs /TFLs for the lighting the areas outside the building should be integral part of the project design and should be in place before project commissioning. Use CFLs and TFLs should be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination. Use of solar panels may be done to the extent possible like installing solar street lights, common solar water heaters system. Project proponent should install, after checking feasibility, solar plus hybrid non-conventional energy source as source of energy.
XXXIV	Diesel power generating sets proposed as source of backup power for elevators and common area illumination during operation phase should be of enclosed type and conform to rules made under the Environment (Protection) Act, 1986. The height of stack of DG sets should be equal to the height needed for the combined capacity of all proposed DG sets. Use low sulphur diesel. The location of the DG sets may be decided with in consultation with Maharashtra Pollution Control Board.
XXXV	Noise should be controlled to ensure that it does not exceed the prescribed standards. During nighttime the noise levels measured at the boundary of the building shall be restricted to the permissible levels to comply with the prevalent regulations.
XXXVI	Traffic congestion near the entry and exit points from the roads adjoining the proposed project site must be avoided. Parking should be fully internalized and no public space should be utilized.
XXXVII	Opaque wall should meet prescriptive requirement as per Energy Conservation Building Code, which is proposed to be mandatory for all air-conditioned spaces while it is aspiration for non-air-conditioned spaces by use of appropriate thermal insulation material to fulfill requirement.
XXXVIII	The building should have adequate distance between them to allow movement of fresh air and passage of natural light, air and ventilation.

XXXIX	Regular supervision of the above and other measures for monitoring should be in place all through the construction phase, so as to avoid disturbance to the surroundings.
XL	Under the provisions of Environment (Protection) Act, 1986, legal action shall be initiated against the project proponent if it was found that construction of the project has been started without obtaining environmental clearance.
XLI	Six monthly monitoring reports should be submitted to the Regional office MoEF, Bhopal with copy to this department and MPCB.
XLII	Project proponent shall ensure completion of STP, MSW disposal facility, green belt development prior to occupation of the buildings. As agreed during the SEIAA meeting, PP to explore possibility of utilizing excess treated water in the adjacent area for gardening before discharging it into sewer line No physical occupation or allotment will be given unless all above said environmental infrastructure is installed and made functional including water requirement in Para 2. Prior certification from appropriate authority shall be obtained.
XLIII	Wet garbage should be treated by Organic Waste Converter and treated waste (manure) should be utilized in the existing premises for gardening. And, no wet garbage will be disposed outside the premises. Local authority should ensure this.
XLIV	Local body should ensure that no occupation certification is issued prior to operation of STP/MSW site etc. with due permission of MPCB.
XLV	A complete set of all the documents submitted to Department should be forwarded to the Local authority and MPCB.
XLVI	In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Department.
XLVII	A separate environment management cell with qualified staff shall be set up for implementation of the stipulated environmental safeguards.
XLVIII	Separate funds shall be allocated for implementation of environmental protection measures/EMP along with item-wise breaks-up. These cost shall be included as part of the project cost. The funds earmarked for the environment protection measures shall not be diverted for other purposes and year-wise expenditure should reported to the MPCB & this department.
XLIX	The project management shall advertise at least in two local newspapers widely circulated in the region around the project, one of which shall be in the Marathi language of the local concerned within seven days of issue of this letter, informing that the project has been accorded environmental clearance and copies of clearance letter are available with the Maharashtra Pollution Control Board and may also be seen at Website at http://ec.maharashtra.gov.in .
L	Project management should submit half yearly compliance reports in respect of the stipulated prior environment clearance terms and conditions in hard & soft copies to the MPCB & this department, on 1st June & 1st December of each calendar year.
LI	A copy of the clearance letter shall be sent by proponent to the concerned Municipal Corporation and the local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the Company by the proponent.
LII	The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO ₂ , NO _x (ambient levels as well as stack emissions) or critical sector parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
LIII	The project proponent shall also submit six monthly reports on the status of compliance of the stipulated EC conditions including results of monitored data (both in hard copies as well as by e-mail) to the respective Regional Office of MoEF, the respective Zonal Office of CPCB and the SPCB.
LIV	The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF by e-mail.

Maharashtra

4. The environmental clearance is being issued without prejudice to the action initiated under EP Act or any court case pending in the court of law and it does not mean that project proponent has not violated any environmental laws in the past and whatever decision under EP Act or of the Hon'ble court will be binding on the project proponent. Hence this clearance does not give immunity to the project proponent in the case filed against him, if any or action initiated under EP Act.

5. In case of submission of false document and non-compliance of stipulated conditions, Authority/ Environment Department will revoke or suspend the Environment clearance without any intimation and initiate appropriate legal action under Environmental Protection Act, 1986.

6. The Environment department reserves the right to add any stringent condition or to revoke the clearance if conditions stipulated are not implemented to the satisfaction of the department or for that matter, for any other administrative reason.

7. Validity of Environment Clearance: The environmental clearance accorded shall be valid as per EIA Notification, 2006, and amendments by MoEF&CC Notification dated 29th April, 2015.

8. In case of any deviation or alteration in the project proposed from those submitted to this department for clearance, a fresh reference should be made to the department to assess the adequacy of the condition(s) imposed and to incorporate additional environmental protection measures required, if any.

9. The above stipulations would be enforced among others under the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986 and rules there under, Hazardous Wastes (Management and Handling) Rules, 1989 and its amendments, the public Liability Insurance Act, 1991 and its amendments.

10. Any appeal against this Environment clearance shall lie with the National Green Tribunal (Western Zone Bench, Pune), New Administrative Building, 1st Floor, D-, Wing, Opposite Council Hall, Pune, if preferred, within 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
